LIVING ON  
THE EDGE

In our senior year we are all *Living on the Edge* -- the edge of the future. As we work toward our last day of school, there is one thing that we will share throughout our lives: the memories we've created here at Mill River. Our teachers, our friends and our families have all worked hard to hone us to a *fine edge* and make us the best that we can be.

Then, when we've reached the final stage, where we are at the razor's edge, we shall soar into the future, carrying with us our memories of *Living on the Edge*.

# High Steppin'

It's Friday night and, as usual, there's nothing better to do than to sit at home and watch T V with your family. But wait! There's a dance going on. It's the perfect opportunity to get out of the house and hang out with your friends for an evening filled with food, fun, and music. More than likely, it will be an evening you won't forget.

## 1993 DESIGN T.A.S.C. COMPETITION WINNERS

For this year's University of Vermont-sponsored Design TASC competition (open to all Vermont high school students) Mill River physics students, JoAnna Graves, Krista Gile, and Melissa Keyes (under supervision of Mr. Navarrete) created a device which simulates a skier's last run of the day. For the contest, wooden clothes pins were used in place of skiers and a mountain was created by making a wooden ramp, all of which had to be powered by falling rice. The MR team, *The Psychoschizophysicists*, used their knowledge of science and mathematics to create a machine to accomplish this task. The *Psychos*, along with 27 other high school teams from around the state, gathered at UVM for the competition. When the clouds of rice-dust had cleared, the *The Psychos* came home with the Best Performance Award and a 500 dollar grant. Congratulations to the *Psychoschizophysicists* team.

# LIFE AFTER 2:15 !

After the bell rings, most of us rush frantically through the hallways in order to catch our buses. Those who don't, head to the cafeteria for donuts or ice cream to satisfy their grumbling tummies.

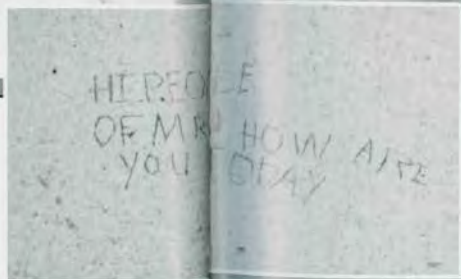

They are most likely staying after for various activities which include: drama, sports, socializing, and everyone's favorite, detention!

No matter what you're staying after for, there will always be someone to hang out with and talk to.

# Boys' Varsity Soccer

"The Boys' Varsity Soccer team finished a successful year with an overall record of 8-6-2. The

relatively young team (total of eleven freshmen and sophomores) improved a great deal through the season. They qualified for play-offs and shut out Lamoille in the first round. The quarter-final loss came

during a tough match against a strong Burr and Burton team. The season was filled with exciting games including an unforgettable barn-burner at Rutland. Mill River won 8-7, and 12 goals were scored in the second half.

The team will certainly miss the leadership of senior tri-captains Steve Smith and Russell Carrara.

At the same time, we look forward to the return of tri-captain Aaron Bruckerhoff along with 19 returning lettermen."

- Coach Chris Slack

Above Left: Hunter and Zach share a special moment of camaraderie.

Seward.

# Girls' Varsity Soccer

Who says soccer isn't graceful?

Chaundra takes a well deserved rest.

"This year's Girls' Varsity Soccer Team had a very successful season with a 8-5-3 record. They made it to the Quarter Finals which ended in a 1-0 overtime loss against Middlebury. Young, but experienced, they showed their skill and respect for the game when they hit the pinch. Although ankles and knees became injured, the team never gave up. With the coaching combinations of Mrs. Congdon, Greg King, and Dave Rogers, they lived up to what they said in their huddle before each game and after every practice, 'Be the Best'."

- Coach Marge Congdon

A befuddled Coach Congdon watches her team.

Back Row: Coach Congdon, S. Huber, M. Stephan, A. Jessor, E. Cecot, V. Costantino, M. Heitzke, J. Whitmer, L. Jessor.

# ON THE EDGE

# OF KNOWLEDGE

# VOCATIONAL

# TECHNOLOGY

Mill River students are afforded the valuable opportunity to attend Stafford Technical Center. There, students can elect the courses that will prepare them for their future careers.

Among the courses offered are: culinary arts, marketing, human services, automotive technology, carpentry/masonry, electrical/plumbing, business, forestry, health services, and machine technology. Stafford Technical

Center makes a significant contribution to the Mill River community by enabling our students to acquire valuable work-related experiences.

# Science Fair

Mill River's annual Science Fair gives students an opportunity to investigate an area of science of their own choosing. The purpose is to allow students to initiate, develop and complete research in their chosen area -- a self directed chance to "do" science in a realistic manner. Students in grades 7-10 and 12 generally do projects. The best projects go on to compete at the Vermont State Science Fair in April, where Mill River students traditionally have done very well in competition.

Many projects are designed to investigate some aspect of other students' behavior, likes or dislikes. Human behavior and traits are a popular area of research. Also frequently researched are areas involving animal behavior; likes, dislikes, etc. The Mill River Science Fair is the largest local one in the state of Vermont, involving hundreds of students and provides the community with a great opportunity to view students' academic projects. The science faculty is most grateful for the continued support of the community.

-Carolyn Raiford

There really is nothing like the feeling of knowing that tomorrow is the day of the BIG TEST and you have yet to study. Too bad you wasted your whole day frolicking in the yard with your dog. Oh well, it's too late now, and you think you're destined to fail, but hey, miracles can happen!

# ACTING ON THE EDGE

# YEARBOOK

Creating a yearbook is a lot of hard work. Just ask anyone who has stayed at school until nine o'clock or gotten up at seven o'clock during their vacations to work diligently on the yearbook. This year's staff was lucky enough to have many hard-working, enthusiastic individuals to make the yearbook a reality. Apart from the regular staff, many others also added a hand. Unfortunately, the yearbook is also a very stress-filled activity. If you have ever seen someone running around after school pulling their hair out in frustration, chances are they are working on the yearbook. Of course, in about ten years, the entire staff will be admitted to a clinic for treatment of ulcers, but boy did we have fun doing it. So if you see a member of the yearbook staff, walk up to them and ask them how much fun they had, then duck, because they will probably grab the nearest object and hurl it at you. But seriously folks, the yearbook was one of the most enjoyable experiences I've ever had. So, if you get the chance, stop in and see Mr. Jarvis and ask him if he needs any help on the yearbook. It will be an experience you'll never forget. Enjoy the memories!!

This year's yearbook staff was: Alex LaMere, Dan Cristelli, Courtney Roberts, Angela Hetzel, Molly Carleton, Daniele Ingalls and Brian Ferguson. The yearbook staff would also like to thank Mr. Bruce Francis for proforeeding this eyars yearbok.

Thang's a million, Spruce!!

# MATH COUNTS

This school year was an eventful one for the seventh and eighth grade students involved in Mill River Mathcounts. In October many of these "mathletes" participated in a mini-meet held in Fair Haven where they teamed up with students from other schools to display their mathematical talents. Two more mini-meets were held in November. The Mt. Aben mini-meet was especially enjoyable as it was followed by pizza and a swim in their indoor pool. During the course of the year the mathletes met regularly with Mr. Tucker and Mr. Barker to time up for the regional competition held in February. All in all, it was a busy year for Mill River Mathcounts.

# BAND

# stage 40

*Stage 40* is Mill River's senior high theatre company. Students experience theatre through their participation in lighting, sound, acting, set design and construction, props, production, management, and scenic painting. Well known for its excellence in drama, *Stage 40* has been recognized year after year as an outstanding theatre company. Whether it's the tragic drama of "Amadeus" or the comedy of "Ready when you are, C.B.", *Stage 40* carries it off with style.

*Stage 20* is made up of students in grades 7-9 who wish to participate in theatre. With the help of their senior advisors from *Stage 40*, they are able to learn theatre crafts and disciplines while putting on several shows a year. Their always appreciative audiences eagerly anticipate each *Stage 20* production.

AND THE  
**CLASS OF 1994!!!**

Well, the school year  
of 1993-1994 has come  
to a close... and so must  
this book! But no matter  
what you do or where you  
go, you'll always be  
*on the edge...*  
the edge of discovery,  
the edge of adventure,  
the edge of the future.  
Just as the years move on,  
so must we, but there will  
always be a place deep  
down inside where we'll  
remember and cherish our  
years at Mill River.
